To: Willows Recreation Departments Swim Lesson Parents and/or Guardians  
From: Carol Lemenager Willows Recreation Director  
Re: Swim Lessons

- Parents and/or Guardians, The Willows Recreation Department's swim lessons are **group** lessons and not private lessons. Children need to be able to stand in the shallow end of the big pool.
- Parents and/or guardians need to **follow all pool rules**. You're also to follow the instructor's commands/instructions. (If you do not know the rules we will give you copy.)
- Parents are to **stay behind the railing** to the west by the wading pool, or in the shelter north of the 7ft area of the big pool, where the picnic tables are located.
- Parents are **NOT allowed** to go onto the diving board during lessons.
- Parents with children in the wading pool must watch their child. **No toys** allowed in the wading pool.
- Parents are encouraged to watch the lessons quietly and let the instructor teach the class. All encouragement to your child should be done after class is over. Again we encourage you to watch your child, so at the end of lessons you may give positive feedback to them.
- Parents and/or guardians **need to be ready to leave** the pool by 12:10 P.M.
- Nobody is allowed into any pool until a lifeguard/instructor is present and visible to see.

Thank you for your cooperation

**The City of Willows is an Equal Opportunity Provider**
