We obtained the completed worksheets and compared the Limit and annual adjustment factors in those worksheets to the Limit and annual adjustment factors that were provided by the State Department of Finance. We also evaluated the City's compliance with Government Code Section 37200.

Finding: The City calculated an Appropriation Limit of \$13,077,237. We recalculated the information and came up with \$13,076,924. The difference is \$313.

2. We determined compliance with the Appropriations Limit. We compared the proceeds of taxes subject to the calculated Limit.

Finding: No exceptions were noted as a result of our procedures.

3. We determined that the Appropriations Limit resulting from the completion of the various worksheets was adopted by the City Council. We noted that the Limit was approved by the City Council on June 27, 2022.

Finding: No exceptions were noted as a result of our procedures.

4. We compared the prior year Appropriations Limit presented in the current year Appropriations Limit calculation to the prior year Appropriations Limit adopted by the City Council.

CITY OF WILLOWS
Notes to Appropriations Limit Worksheet
For the Year Ended June 30, 2023

NOTE 1: PURPOSE OF LIMITED PROCEDURES REVIEW

Under Article XIII B of the California Constitution (the Gann Spending Limitation Initiative), California governmental agencies are restricted as to the amount of annual appropriations from proceeds of taxes. Effective for years beginning on or after July 1, 1990, under Section 1.5 of Article XIII B, the annual calculation of the appropriations limit is subject to a limited procedures review in connection with the annual audit.

NOTE 2: METHOD OF CALCULATION

Under Section 10.5 of Article XIII B, for fiscal years beginning on or after July 1, 1990, the appropriations limit is required to be calculated based on the limit for the fiscal year 1986-1987, adjusted for the inflation and population factors discussed at Notes 3 and 4 below.

NOTE 3: PER CAPITA PERSONAL INCOME FACTOR

The per capita personal income factor was obtained by using the percentage factor from the State Department of Finance letter dated May 1, 2022. The CPI change was 7.55 percent. This percentage was converted to a ratio and for calculation purposes was 1.0755.

NOTE 4: POPULATION CHANGE FACTOR

There are two methods of calculating the change in population that a city may choose in determining the Gann Limit. 1) The change in population within the City; 2) the change in population within the County. The City may use either of these methods in any year.

The City has elected to use the change in population within the City. Per the May 1, 2022 letter from the State Department of Finance the population change percentage was 1.29. This percentage change was converted to the ratio factor of 1.0129.

NOTE 5: OTHER ADJUSTMENTS

A California government agency may be required to adjust its Appropriations Limit when certain events occur, such as the transfer of responsibility for municipal services to, or from, another government agency or private entity. The City had no such adjustments for the year ended June 30, 2023.
