#### E. METHOD OF AWARD:

In accordance with applicable law, the City reserves the right to reject any or all bids and to waive any informality in any bid. The City reserves the right to accept any portion of any bid, unless the bid package expressly provides that the award will be made as a whole. If the City elects to award a contract for performance of the Project, the contract will be awarded in accordance with California Public Contract Code Section 20162 and other applicable law to the responsible bidder submitting a responsive bid with the lowest total bid price for the base bid without consideration of the bid prices for additive or deductive alternate items listed in the Notice to Bidders.

In accordance with the contract documents and other applicable law, the City may add or deduct items of work from the Project after the lowest responsible bidder is determined. The award of the contract(s) shall be at the sole discretion of the City.

Award(s) will be made to the lowest bidder(s) that is responsible whose quote complies with all of the provisions of the RFQ, provided that the amount does not exceed the amount of funds available to finance the contract. In the event that a responsive quote from the lowest responsible bidder exceeds available funds, the City Engineer or his/her designee may negotiate the amount of the quote with the apparent low bidder to obtain a contract price within available funds.

Discrepancies between the multiplication of unit prices and extended prices will be resolved in favor of the unit prices. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum. Discrepancies between words and figures will be resolved in favor of words.

#### F. PRICING

If an inconsistency exists between the amount listed for a unit price in a bid and the total listed for that bid item (e.g., if the total listed for a bid item does not equal the unit price listed in the bid multiplied by the quantity listed), subject to applicable law, the unit price will be deemed to accurately reflect the bidder's intent concerning the bid item and the intended total for the bid item will be deemed to be the unit price as listed in the bid multiplied by the quantity listed.

If the Project bid price is a lump sum total made up of smaller individual bid item prices and an inconsistency exists between the lump sum total bid price and any individual bid item price, subject to applicable law, the individual bid item prices as listed in the bid will

be deemed to accurately reflect the bidder's intended bid for the Project and the intended lump sum total bid for the Project will be deemed to be the sum of the individual bid item prices as listed in the bid, even if that sum is different from the amount actually listed as the lump sum total bid for the Project.

Any federal, state, or local tax payable on articles to be furnished for the Project shall be included in the lump sum total bid price and paid by the Contractor under the contract. The City is exempt from federal excise tax and will provide a certificate of exemption to the successful bidder upon request.

#### G. ASSIGNMENT

Bidders may not assign, sublet, sell, transfer, or otherwise dispose of their bid or any right, title or interest in their bid, or their obligations under their bid, without the written consent of an authorized representative of the City. Any purported assignment, subletting, sale, transfer or other disposition of a bid or any interest in a bid, or of any obligations under a bid without such written consent will be void and of no effect.

#### H. SUBSTITUTION OF "OR EQUAL" ITEMS

In accordance with California Public Contract Code Section 3400, where the Technical Specifications or Project Plans list products by manufacturer's name, brand or model number such information indicates the quality and utility of the items desired and does not restrict bidders to that manufacturer's name, brand or model number, unless the Technical Specifications or Project plans specify that the listed product is necessary to match others in use on a particular public improvement either completed or in the course of completion. Except where the Technical Specifications indicate that a particular brand product is necessary to match others in use, when a manufacturer's name, brand or model number is listed, it shall be construed to be followed by the words "or equal" whether or not those words in fact follow the manufacturer's name, brand name or model number listed in the Technical Specifications or Project Plans. Unless the Technical Specifications or Project Plans indicate that a particular brand product is necessary to match others in use, bidders may propose equals of products listed by manufacturer name, brand name or model number.

Complete information for products proposed as equals must be submitted to the City for review by at least ten (10) working days before the time specified for opening bids. To be considered, proposals concerning products proposed as equals must include sufficient

information to permit the City to determine whether the products proposed as equals will satisfy the same performance requirements as products listed by manufacturer's name, brand or model number. Such performance requirements may include, but are not limited to, size, strength, function, appearance, ease of maintenance and repair, and useful life requirements. Proposals concerning products proposed as equals that are submitted later than ten (10) working days before the time specified for opening bids will not be considered. Failure to bid products specified by manufacturer name, brand name or model number where the Technical Specifications or Project Plans specify that a particular product is necessary to match others in use, or where no proposal concerning products proposed as equals has been submitted in accordance with this provision may render a bid non-responsive.

I. NONCONFORMING TERMS AND CONDITIONS:

If a bidder submits with its quote alternate terms and conditions that do not conform to the terms and conditions in this solicitation, the quote will be subject to rejection as nonresponsive.

J. DISPOSITION OF QUOTES:

All materials submitted in response to this RFQ will become the property of the City. All quotes shall be retained for official files and will become a public record after the award and open to public inspection. It is understood that the quote will become a part of the official file on this matter without obligation on the part of the City.

K. COST INCURRED IN RESPONDING:

This solicitation does not commit the City to pay any costs incurred in the preparation and submission of quotes or in making necessary studies or designs for the preparation thereof, nor to procure or contract for services.

L. NON-COLLUSION:

Collusion or restraint of free competition, direct or indirect, is prohibited. Contractors are required to execute the non-collusion statement. See Attachment A.

#### M. BIDDER INVESTIGATIONS:

Before submitting a quote, each bidder must make all investigations and examinations necessary to ascertain all conditions and requirements affecting the full performance of the contract and to verify any representations made by City upon which the bidder will rely. No claims of ignorance of such conditions and requirements resulting from failure to make such investigations and examinations will relieve the successful bidder from its obligation to comply in every detail with all provisions and requirements of the contract documents or will be accepted as a basis for any claim whatsoever for any monetary consideration on the part of the successful bidder.

Any bidder that discovers any apparent conflicts, errors, or ambiguities contained in the bid package or between the contents of the bid package and the Project site, or that has questions or requires clarification concerning the bid package or its intent must inform the City in writing as soon as reasonably possible, but no later than five (5) working days before the date specified for bid opening. Such notice to the City must be sent to the address specified in the Notice to Bidders for questions concerning the bid package. Questions received less than five (5) working days before the time specified for opening bids may not be answered.

Any interpretation, correction or change of the bid package prior to bid opening will be made by addendum signed by an authorized representative of the City and transmitted to all bid package recipients. No other interpretation or information concerning the bid package issued prior to the date specified for opening bids will be binding. All addenda signed by an authorized representative of the City and issued prior to the time and date specified for opening bids will form a part of the contract documents and must be acknowledged on the bid forms. Any changes, exceptions or conditions concerning the Project and/or the bid package submitted by any bidder as part of a bid may render that bid non-responsive.

#### N. INCOMPLETE DOCUMENTS:

Each bidder is responsible for having determined the accuracy and/or completeness of the solicitation documents upon which it relied in making its quote, and has an affirmative obligation to notify the City immediately upon discovery of an apparent or suspected inaccuracy, error in, or omission of any pages, drawings, sections, or addenda whose omission from the documents was apparent from a reference or page numbering or other indication in the solicitation documents.

If the successful bidder proceeds with any activity that may be affected by an inaccuracy, error in, or omission in the solicitation documents of which it is aware but has not notified the City, the bidder hereby agrees to perform any activity described in the missing or incomplete documents at bidder's sole expense and at no additional cost to City.

**O. QUALIFICATION OF BIDDERS:**

Each bidder may be required, before the award of contract, to show to the satisfaction of the City that it has the necessary facilities, ability, and financial resources to comply with the contract and furnish the service, material or goods specified herein in a satisfactory manner. Each bidder may also be required to provide past history and references which will enable the City to be satisfied as to the bidder's qualifications. Failure to qualify according to the foregoing requirements will result in quote rejection by the City.

**P. INFORMALITIES:**

The City reserves the right to waive minor defects or variations from the exact requirements of the solicitation in a quote insofar as those defects or variations do not affect the price, quality, quantity, or delivery schedule of the services being procured. If insufficient information is submitted for the City to properly evaluate the quote by a bidder; the City reserves the right to require such additional information as it may deem necessary after the quote opening time and date, provided that the information requested does not change the price, quality, quantity, or delivery schedule for the services being procured.

**Q. CITY OF WILLOWS BUSINESS LICENSES:**

The successful bidder engaged in the Project must have a valid City of Willows business license(s), as applicable, at the time of bid submission.

**R. WITHDRAWAL OF QUOTE FROM CONSIDERATION AFTER QUOTE OPENING:**

After the opening of a quote, a bidder may withdraw its quote from consideration if the price of the quote is substantially lower than other quotes due solely to a mistake therein, provided the quote is submitted in good faith, the mistake is a clerical mistake as opposed to a judgment mistake, and is actually due to an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the

compilation of the quote, which unintentional error or unintentional omission can be clearly shown by objective evidence drawn from inspection of original work papers, documents and materials used in the preparation of the quote sought to be withdrawn.

No partial withdrawals of quotes will be permitted after the time and date set for the quote opening. The bidder must give notice in writing to the City of a claim of right to withdraw a quote and provide all original work papers, documents and other materials used in the preparation of the quote sought to be withdrawn, within two (2) business days after the date of quote opening.

A quote may also be withdrawn if the City fails to award or issue a notice of intent to award the quote within ninety (90) days after the date fixed for opening quotes.

#### S. NOTICE OF AWARD:

When the City has made a decision to award a contract, the City will notify the bidders by e-mail using the email address provided with the quote.

#### T. PREVAILING WAGE RATES

As this RFQ is only for materials, the section on Prevailing Wage does not apply.

#### U. LICENSING REQUIREMENTS

As this RFQ is only for materials, the section on contractor licensing does not apply.

## **SECTION III – CONTRACT TERMS AND CONDITIONS**

### **INSURANCE REQUIREMENTS:**

### **INDEMNIFICATION:**

The Contractor shall indemnify and save harmless the City and its representatives from and against all losses and claims, demands, suits, actions, payments, and judgments arising from personal injury or otherwise, brought or recovered against the City and its representative by reason of any act, negligence or omission of the Contractor, its agents, servants or employees, in supplying the material for this project, including any and all expense, legal and otherwise, incurred by the City or its representatives in the defense of claim or suit. This paragraph shall survive the expiration or termination of this Agreement.

### **TERMINATION:**

The City may terminate the Agreement if (1) the Contractor is adjudged bankrupt, or if it should make a general assignment for the benefit of creditors, or if a receiver should be appointed on account of its creditors, or (2) for any reason or for no reason, at the City's sole discretion.
